LED indicator

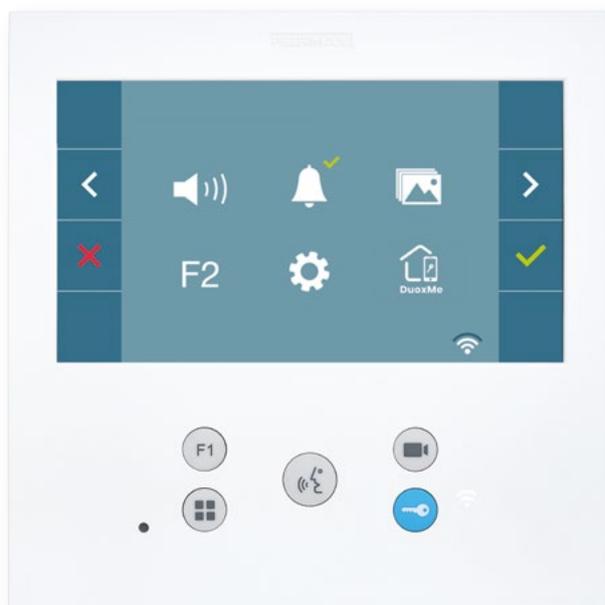

-  Pick up
-  Reject/Hang up
-  Door opening

DUOX<sub>plus</sub>

Two Wi-Fi monitor options: the VEO monitor with its unique handset design incorporating a magnet that enables the user to hang up correctly at the end of the conversation, and the VEO-XS and VEO-XL hands-free monitors.

VEO, VEO-XS and VEO-XL DUOX PLUS Wi-Fi monitors are equipped with a Wi-Fi connection that allows call forwarding to mobile devices. Thanks to the Fermax DuoxMe app, the functions of the video door phone can be managed from a smartphone or a tablet, in order to connect you to your home, wherever you are.

## Everything changes with DUOX PLUS **Wi-Fi** monitors

Download the free DuoxMe app and you will be able to receive video intercom calls on your smartphone or tablet wherever you are. You will also be able to manage multiple homes from the same smartphone.

DuoxMe with Wi-Fi monitors also connects with **Alexa and Google Home**, so you can receive call notifications from the video intercom on a smart speaker or display. You can also use your voice to open the door, either with your smart speakers and displays or with Siri on your iOS device (iPhone, iPad or Apple Watch).

## Accessibility

Mechanical buttons allow visually impaired people to locate the buttons to talk and open the door before pressing them.

All Duox Plus monitors are available in a model with inductive loop. In this case, the induction system included in the monitors transforms the audio signal into a magnetic field adapted to the hearing aids or prostheses of the hearing impaired people.
