Description.

Description

Audio terminal. Installed in homes, it allows communication with the entrance panel and door opening.

A new concept of home phone. An integrated design, in accordance with new trends and lifestyles, simple and functional that combines quality and design.

Its purity of lines, its technology and features make this equipment an elegant and perfect element for any home.

It is made of high impact ABS plastic, with a textured finish for easy cleaning and ultraviolet protection for greater resistance to light.

Wall installation and easy fixing.

Audio terminal. Installed in homes, it allows communication with the entrance panel and door opening.

Conventional System: it uses common wires for the entire installation plus 1 call wire (or callback) per dwelling.

Recommended for small/medium/large size buildings. In MDS system for urbanizations with general entrance and interior blocks

with several accesses and guard units.

Cabling:

- Audio: 4 common wires + N (1 call wire per dwelling).
- Video door phone: 7 common wires + 1 video coaxial + N (1 call wire per dwelling).

Maximum installation distance depending on the section of the cable used (see technical manuals)

Technical Details

The terminal incorporates a magnet in the area of the handset that allows the arm to be well hung and fixed to the base.

This prevents the arm from falling during hanging, damaging the wall and also prevents it from causing failures in the installation due to being poorly hung.

Screwable on surface.

System power:

- Audio: 12 Vac
- Video: 18 Vdc

Door opener button and call to concierge.
