

Product Code

F03610

## MEMOKEY CITY CLASSIC READER

Reference

3610

EAN

8424299036106

### Description.

---

#### Description

- Telephone type keypad that lets you open the door when a previously programmed 6 digit code is entered.
- Stand-alone Access Control System. For installations where a simple access control is required, with no incidents record, to complement the audio/video door entry system and enable access to the building for residents, for example: offices, small businesses, garages.
- Colour aluminium
- CityLine Classic is the "continuous profile" outdoor panel line for buildings.
- The PANELS are manufactured in anodized aluminium, highly resistant to rough weather and climate changes.
- The panel design stands out for its curved-convex profile. A cellular rubber airtight seal included assures a perfect panel-to-wall fit to prevent water filtrations.
- It is possible to combine two or more panels, as long as they are from the same series. For a perfect fit, a set of separators should be used for every two panels installed between their flush mounted boxes.

#### Technical Details

Operating temperature: -10 to 60 °C

Up to 100 user codes

- Code length 4 to 6 digits.
- Electric lock release activation by Relay2 A (NA,NC). Programmable 1 to 99 sec. or bistable.
