Description.

Description

In order to install a panel it is necessary to place a box in the wall where we will subsequently fix the panel.

The flushboxes are made of metal.

When different panels, always of the same series, are combined, it is necessary to use a set of joining bolts for a perfect fitting. A set of joining bolts is needed for each additional panel that is installed between every flushbox.
Available in all the series. Select the box of the necessary series depending on each case.
