Description.

Description

For iLOFT telephones.

Stainless steel bracket with four self-adhesive feet for surface protection, preventing it from sliding and absorbing any surface irregularities.

Available with accessories for assembly.

How to install and assemble:

- Mount the telephone base on the bracket and fasten it using the screws supplied.
- For the VDS system, attach the connectors and cable according the color coding on the jack or junction box on the wall.
- For IP installations, connect it using the network cable. Remove any protection from the RJ45 connectors in order to connect the cable.
- After connecting to the corresponding system, mount the telephone front plate.
- Position the adhesive clip so it guides the cable.

Components included:

- Stainless steel bracket.
- Four M3 x 5 screws.
- White telephone cable (8-core, 2 meters).
- White front surface jack or junction box (8 terminals).
- Screws and wall plugs for mounting the jack or junction box.

- Adhesive clip for guiding the cable.
- Assembly instructions.
