Description

**Smile Monitor. White.**

Video door entry COLOUR monitor. TFT screen 7".

Installed in homes, lets you communicate with the outside panel, open the door and see the visitor on the built-in screen .

VDS system:

Simplified installation audio and video door entry system that does not use house call wires. The call is made by transmission of a digital call code generated by the VDS amplifier.

- In new works, installation can be carried out with the following type of wiring: 5 wire / 3 wire + Coaxial (video).

Lets you manage up to 199 homes, 2 entrance accesses and a central guard unit.

Maximum distance from first access to last home: 200 m.

VDS amplifier comes with voice synthesizer as standard issue.

When the door release is activated a message is heard: "Door open, please close after entering".

The home terminals require simple programming done from the outdoor panel. By means of this programming a call code is assigned to each terminal (telephone or monitor).

Communication is private.

Wiring. Audio: 3-wire bus. Video: 5 wire / 3 wire + Coaxial (video).

Maximum distance from first access to last home: 200 m.

Smile is a new video entry experience.

It is cool and smart. With a design that allows its perfect integration in any surrounding.

An advanced management monitor, with **hands-free communication**, high-performance features and user friendly.

**Compact and essential design.** Its TFT screen and its capacitive touch buttons remain behind an ultra-resistant transparent polycarbonate sheet with ultraviolet protection.

Smile is the result of a refined design which has reduced and stylized its components to the minimum expression.

#### Technical Details

Totally hands-free operation; once the outdoor panel-home channel is activated, communication is simultaneous.

Consumption:

- in standby: 33 mA

- active: 750mA
