

Product Code

F06790

# UNIVERSAL ELECTRIC STRIKE 990N-524 MAX

Reference

6790

EAN

8424299067902

## Description.

---

Description

### Reversible (Right DIN or Left DIN).

Lets you open the door from right and left.

### Symmetrical.

Allows to change hands, maintaining the body symmetry.

### DIN STANDARD

establishes the direction the door opens and designates the type of lock release installed.

Looking at the door from the side with the hinges visible:

- If the hinges are to the left of the observer, it is a left DIN lock release.
- If the hinges are on the observer's right, it is a right DIN.

### Operating type.

There are several types of door lock release mechanisms depending on the type of operation needed.

**N-524 Inverted type 24Vdc** (Inverted Operation and 24 Vdc activation)

The door release is automatically unlocked when the 24 Vdc pulse stops.

**Max Adjustable Latch:**

The lock release includes an adjustable latch, allowing a perfect fit between latch and deadbolt in the lock, with a 4mm margin. It avoids door leaf pressure on the lock release latch bolt.
