## Description.

Description

Necessary when the panel must be fitted in a point hard to access, for example behind a gate.

It is also useful to focus the camera better, in places where the panel is installed so that the person who calling is outside its field of vision.

They are manufactured in 2mm thick anodized aluminium.

As it is possible to combine two or more panels, as long as they are from the same series, there are 9 series de angular complements for single, double or triple panels, choosing the angular complement from the series necessary in each case. Corner Complement Versions for 1, 2 or 3 panels:

- SINGLE: 1 Panel.

- DOUBLE: 2 Panels.

- TRIPLE: 3 Panels.
