## Description

Necessary when the panel must be fitted in a point hard to access, for example behind a gate.
It is also useful to focus the camera better, in places where the panel is installed so that the person who calling is outside its field of vision.
They are manufactured in 2 mm thick anodized aluminium.
As it is possible to combine two or more panels, as long as they are from the same series, there are 9 series de angular complements for single, double or triple panels, choosing the angular complement from the series necessary in each case.

Corner Complement Versions for 1, 2 or 3 panels:

- SINGLE: 1 Panel.
- DOUBLE: 2 Panels.
- TRIPLE: 3 Panels.
