Product Code

F09453

IP/DUOX PLUS INTERFACE+CAMERA KIT

Reference	EAN
9453	8424299094533

Description.

Description

This kit **includes the IP/DUOX PLUS camera interface (ref. 9454) and the IP camera (ref. 9985) already preconfigured (Plug & Play)** . Thus, for the most frequent use case in which there is an entrance panel with an additional camera, the installer only needs to connect the installation without having to configure anything either in the camera or in the interface .

For any other case of use it will be necessary to configure the camera and interface as explained in its manual. This kit **includes the power supply for the IP camera (ref. 9982) and its adapter (ref. 9984**), although the camera's power supply can also be done with a PoE switch.
