

Product Code

F30521

ELECTROMAGNETIC LOCK SURFACE 280KG

Reference

30521

EAN

8424299305219

Description.

Description

- Allows closing a door without a traditional lock. It is also used to hold doors open for security reasons.
- The electromagnetic lock release releases the door when it is no longer powered (inverted operation).
- Includes mounting kit and installation brochures.
- It can be powered at both 12 Vdc and 24 Vdc.
- When there is no space in the door frame to fix the lock release or you do not want to drill it, it can be mounted on the wall with brackets.

Technical Details
