Omschrijving.

Omschrijving

Fermax presents the new VEO WIFI DUOX PLUS kits **for single-family houses, offices and businesses** .

The kits include all the necessary materials for your installation: CITYLINE entrance panel with inductive loop, VEO WIFI monitor with inductive loop and power supply.

In addition, they work with DUOX PLUS, a fully digital door entry and video door entry system and technology on two non-polarized wires, which simplifies their installation while maintaining the highest quality in the product and design,

They include the VEO WIFI DUOX PLUS monitor as standard, equipped with a Wi-Fi connection that **allows calls to be forwarded to mobile devices** .

Thanks to the **Fermax BLUE application** , available for free in the Play Store and App Store, the video door entry functions can be managed directly from a mobile or tablet, to connect to your home, wherever you are. By connecting your WiFi DUOX PLUS monitors with the BLUE app, a range of possibilities will open up. Of all of them we highlight two that will be key: Divert calls from the video door entry unit to your mobile and open the door to the house from a distance.

They also come standard with the **Photocaller** function , which automatically captures an image of the caller. If the user decides to activate this function, the monitor stores up to 150 images, indicating the date and time when they were taken. When the maximum capacity has been reached, taking a new photo will erase the first one stored. The screen always indicates if there are photos not displayed or if the date / time are not configured.

The **VEO WIFI DUOX PLUS monitor** is made of high impact ABS plastic.

Includes a 4.3 "widescreen color display (16: 9).

The unique and exclusive design of the handset incorporates a magnet that makes it easy for the user to position it, ensuring a correct hanging at the end of the conversation.

Its balanced design of pure lines is distinctive, modern and minimalist.

The monitor also includes an inductive loop in the earpiece.

The **entrance panel** includes the **OneToOne information module with inductive loop** . The «OneToOne» module with inductive loop shows, by means of 4 LED icons, the state of the board.

These icons symbolize:

- Call.
- Conversation.
- Door opening.
- Channel busy.

In addition, each of the sounds and audio reproduced by the amplifier are emitted by the inductive loop to the devices of disabled people.

DUOX PLUS is the new digital technology that exceeds all expectations. Because it makes the difficult easy.

Aanvullende technische details

It includes:

- 73891 CITY PANEL DUOX PLUS S4 CVP101 DDA
- 8949 CITY FLUSH BOX FOR KIT (S4)
