Omschrijving.

Omschrijving

DUOX PLUS is the new digital technology that exceeds all expectations. Because it makes the difficult easy.

DUOX PLUS is the first fully digital Smart System for doorphone and video door entry based on non-polarized two-wire technology. It is the most technologically advanced system in the world that allows fast installation with just two wires.

It is a technological revolution called to change our conception of doormen and video door entry systems. Because it offers more performance and capabilities, greater simplification and speed. But, above all, because it takes us to a new dimension, where all the information (audio, video, data) is digitalized and transported using only two non-polarized wires.

With DUOX PLUS we are deploying a digital platform in homes that, in addition to offering us important improvements for today, will serve as the basis for tomorrow's innovations.

DUOX PLUS KITS only require two non-polarized wires for installation, maintaining the highest quality product and design, which simplifies installation. The DUOX PLUS KITS of 1 and 2 houses include all the necessary material for a complete door entry installation.

Aanvullende technische details
