## PALACE BUS 3 TELEPHONE

Reference

8084

EAN

8424299080840

### Description.

---

#### Description

The simplified Citymax PALACE telephones, in addition to the standard electronic intercom functions, allow internal communication (everyone with everyone) within the same office, company or home, between 12 points or extensions.

The street sign call and the internal one are different to distinguish their origin.

The terminals have 6 buttons under the arm of the telephone and an additional one on its base to make the call to each extension.

The phones are extra-flat format and are made of high-impact ABS plastic with a mirror-polished finish for easy cleaning.

The applied industrial design and the highest quality components have formed a robust and reliable phone that will please the professional and the user alike.

Wall installation and easy fixation.

Depending on their appearance (number of buttons included), Citymax phones in this simplified BUS3 model can be:

- BASIC:
  - Door release button
- Extra:
  - Door release button
  - 2 Buttons for additional functions

There are 2 BUS3 telephone models:

- Palace Basic BUS3 Telephone (REF 8084)
- Palace Extra BUS3 Telephone (REF 8086)

#### Technical Details

- In-house installation (entry system + internal communication) is reduced to a single 3-wire BUS.
- Installations with interior communication will use Ref. 8084 and 8086 telephones with Ref. 88039 switcher.
- Installations with both internal and outdoor communication (conventional outdoor panel system) will use Ref. 8084 and 8086 phones with switcher Ref. 9017.
